

ISSAQ Implementation Timeline

The goal of ISSAQ is to infuse noncognitive skills into your student success strategy. Certainly administering the ISSAQ Student Survey is essential, but institutions must also identify how to raise awareness, provide training, and integrate data across campus constituencies.

The timeline below outlines key steps in ISSAQ implementation. The timeframe and dates below refer to our typical adoption: starting in Spring and gearing toward assessing incoming students for the Fall semester. However, the timing and sequence of these steps often shift based on institutional needs.
